Title:	Human rights and international humanitarian law
Author zone:	Christian Tomuschat
Host item entries:	European journal of international law,
Languages:	English
Abstract:	It is recognized today that human rights law is not generally displaced in times of armed conflict by international humanitarian law (IHL). Yet in large part this new insight remains to be particularized as to its actual consequences. In particular, IHL is still predominantly under the influence of the concept of military necessity.
