Use of nuclear weapons and protection of the environment during international armed conflict / Erik V. Koppe

Document type:	Chapter
Title:	Use of nuclear weapons and protection of the environment during international armed conflict
Author zone:	Erik V. Koppe
In:	Nuclear weapons under international law
Editor:	Cambridge : Cambridge University Press, 2014
Physical description:	p. 247-268
Languages:	English
Abstract:	This chapter seeks to clarify the scope of the relevant rules of the law of armed conflict and to assess, in abstracto, the legality of the use of nuclear weapons under these rules. It first describes relevant rules of treaty law, essentially Additional Protocol I of 1977. It then discusses protection of the environment during armed conflict under customary international law.
