Languages:	English
	Bibliographie : p. 282-311. Index
Abstract:	This book considers the various issues emanating from present-day breaches of norms of international humanitarian law (IHL) and at how impunity for such breaches can be tackled. It is particularly concerned with the interplay between the rules governing accountability for violations of IHL and those of other areas of law, including international criminal law, human rights law, arms control law, general principles of international law, national constitutional law and national criminal law in terms of military discipline.
