Abstract:	This book presents a detailed study of the return of conflict-affected internally displaced persons (IDPs) under international law. Part I of the book undertakes a wide-ranging analysis of the scope of protection under existing international law for IDP returns. Part II addresses the implementation of the international framework in practice through a case study of the national law, policy and practice of IDP returns during the most intense ten years of the armed conflict in Colombia. Part III, the conclusion, draws together these different strands of analysis.
